

HI-HO Hotel

4180 Black Rock Turnpike

In Japan, the blossoming of the Sakura marks the coming of spring, welcoming the turning of the new season. The earth grows lush with greens, the breathing of new life from the dead of winter. It is from this that the design of the HI HO Hotel takes inspiration.

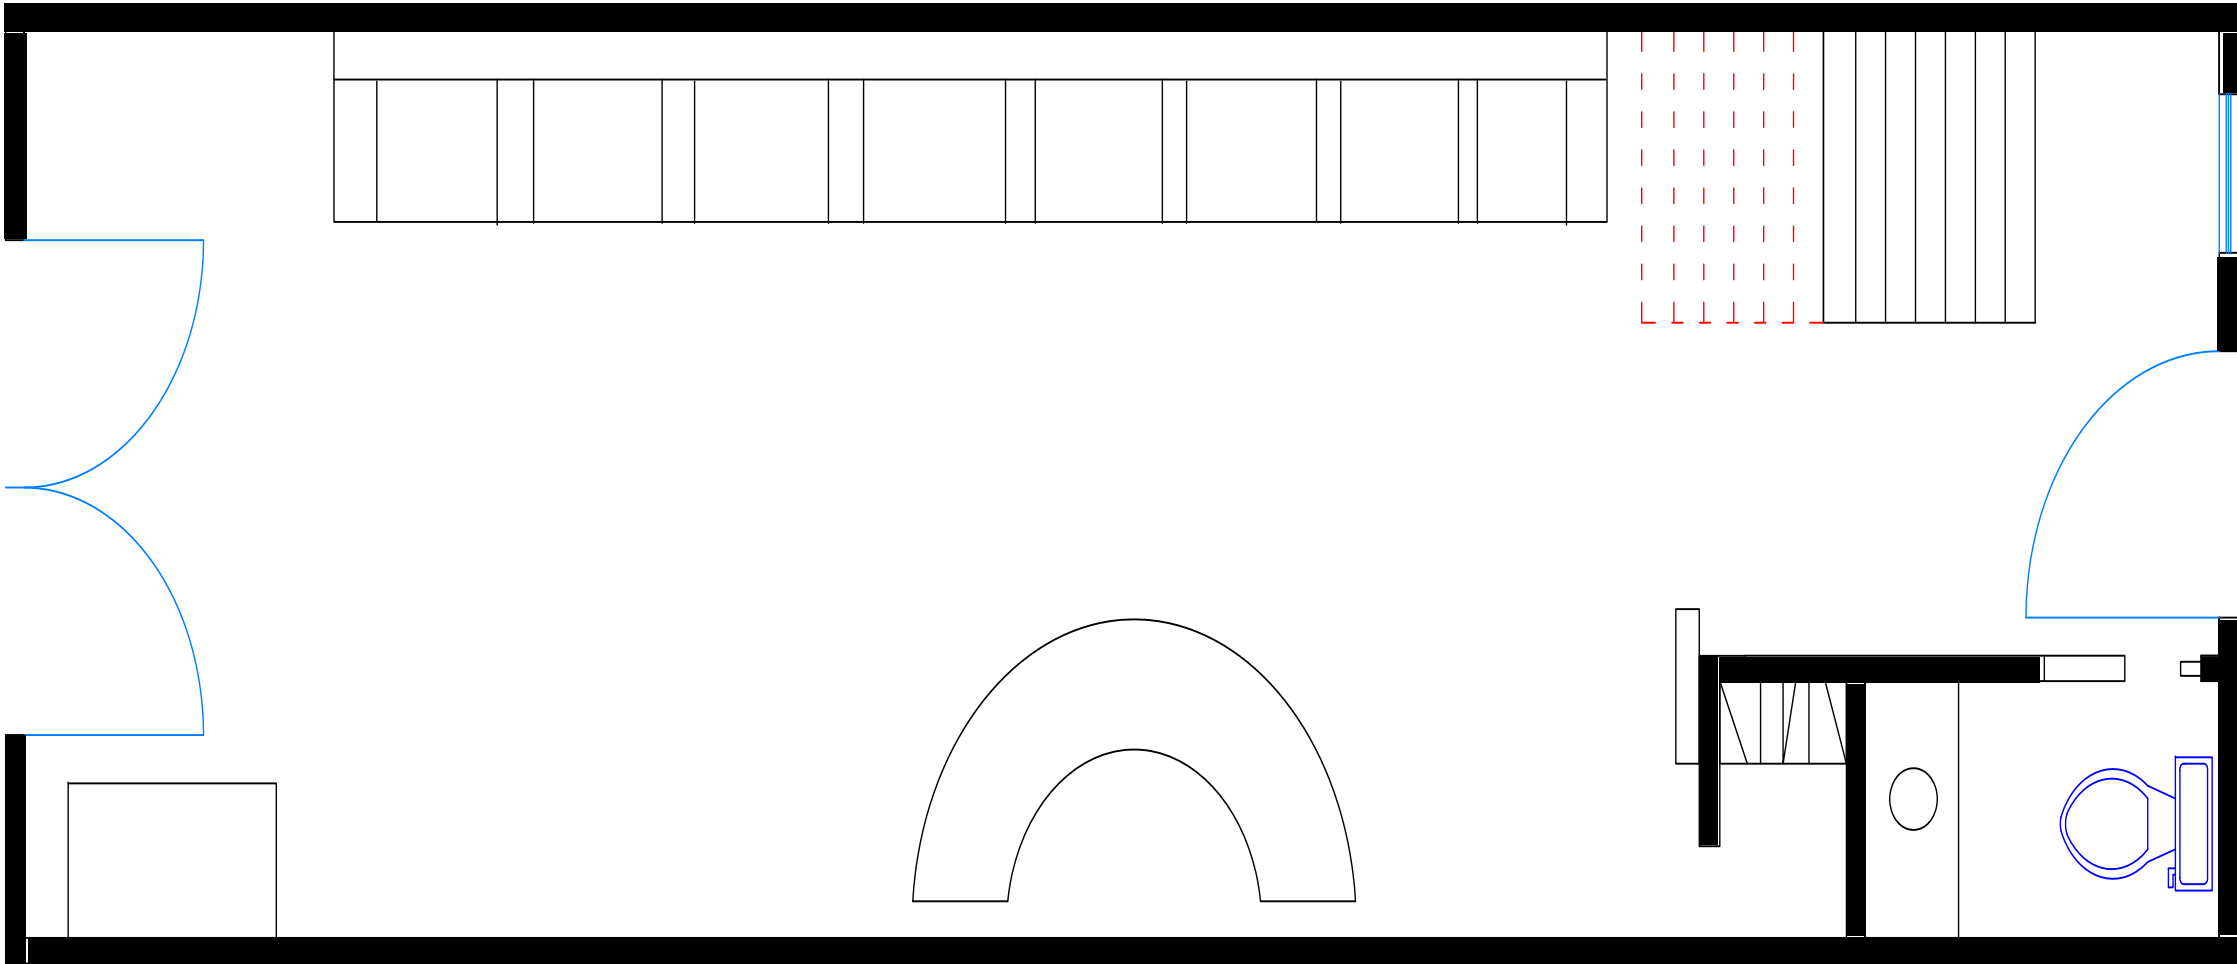

Taking the Sakura and associating it with another trademark of the Japanese, Zen, the result is a simple but elegant, a minimalist but vibrant design.
